

## SCIENTIFIC RESEARCH INSTITUTE – FEDERAL RESEARCH CENTRE FOR PROJECT EVALUATION AND CONSULTING SERVICES (SRI FRCEC)

SRI FRCEC is one of the leading institutes of scientific and technological complex of the Russian Federation, solving the tasks and negotiating the issues of expert-analytical, scientific, methodological, organizational, technological and information support for science, technology and innovation activity of the Russian Federation.

The Institute was established in 1991 and was assigned functions of the parent organization for the state expert examination and assessment in the field of science as well as R&D in the field of expert examination.

At the present time the main scientific activities of the Institute are as follows:

- Monitoring of the status and trends of the global scope and the Russian segment of research and development;
- Justification and formation of priorities, as well as subjects of research and development within the framework of the Federal Target Program of the Russian Federation: «The development of science and technology 2013–2020»;
- Organization and conduct of the state of scientific and technological expert examination of scientific&technological and innovation projects and their results;
- Expert Examination of goods and technologies for export control purposes;
- Formation and organization of the work of the expert community in science and technology, including the use of Information System created by the Institute – «The Federal Roster of Experts» ([reestr.extech.ru](http://reestr.extech.ru));
- Integrated support for tenders and contracts for the implementation of research, including scientific and methodical, organizational and technical support of the Council for Grants of the President of the Russian Federation for state support of young Russian scientists and the state support of leading scientific schools ([grants.extech.ru](http://grants.extech.ru));
- International and regional cooperation, support of activities of the Ministry of Education and Science of RF, National Oceanographic Commission of the Russian Federation ([ocean.extech.ru](http://ocean.extech.ru));
- Monitoring of innovative activity in Russia's regions ([miiris.ru](http://miiris.ru));
- Monitoring of the innovation infrastructure of higher education institutions ([rii-vuz.extech.ru](http://rii-vuz.extech.ru));
- Account and monitoring of the small innovative enterprises of the scientific and educational area ([mip.extech.ru](http://mip.extech.ru));
- Development of forecasts for science, technology and innovation sectors;
- Research in the field of statistics on science and education;
- Development and maintenance of information systems supporting the activities of Ministry of Education and Science of Russian Federation, SRI FRCEC and other organizations.

The Institute carries out a large amount of expert-analytical work. In 2014–2015, it carried out more than 6400 expert examinations of scientific and technological projects, organized 17 000 expert examinations of applications and reports on grants and scholarships of the President of Russia. In a number of areas the research is conducted with the direct participation of the expert community.

There are more than 4000 accredited experts in the Federal Roster, including: Academicians of the State Academy of Sciences – 97, Corresponding Members of the State Academy of Sciences – 250, Doctors of science – 3242, PhD – 756.

The Institute is operating to attract Russian scientists working abroad to research, expert analysis and teaching, in particular, it has organized a number of Events with a wide participation of scientists-compatriots.

The following periodicals and journals are published by SRI FRCEC: collection of scientific papers «Innovation and Expert Examination» ([inno-exp.ru/english](http://inno-exp.ru/english)), statistical compilations ([csrs.ru/english](http://csrs.ru/english)). Information on the results of research carried out by the Institute is reported at several conferences, including international ones.

The Institute is actively developing its capacity in the expert of information and analytical activities. There is a growing demand for the work of the Institute, both in Russia and abroad.
